OX BLOX® Trailer Jack Block

- Fits most jacks and jack feet (round or square)
- Rated to 10,000 lbs.
- Stackable without losing strength.
- Made in the USA
- Patented design (US 11,673,440 B2)
- 100% Recycled Plastic / UV Resistant
- 6.5" height, 12" length, 9.25" width (4.5" and 4.125" between the ridges)

The OX BLOX® Trailer Jack Block is the strongest trailer support block on the market. You won't find anything else that is stronger, more durable, and more versatile than OX BLOX®.

OX BLOX® MAXX

- 9.25" diameter recessed pad
- Rated to 10,000 lbs.
- Stackable without losing strength.
- Made in the USA of 100% Recycled Plastic (patent pending)
- UV Resistant
- 4.3" height, 10.5" width, 9.25" diameter recessed area

OX BLOX® ULTRA

- 13.5" square pad
- Great for Class A or C motorhomes
- Rated to 10,000 lbs.
- Stackable without losing strength.
- Made in the USA of 100% Recycled Plastic (patent pending)
- UV Resistant
- 13.5"x13.5"x2.125" | 7.75 lbs

OX BLOX® Wheel Chocks

- Heavy duty, 100% recycled rubber
- Ergonomic handle
- Wide footprint = more secure
- Slip-resistant. Peace of mind.
- Won't blow away in the wind.

OX BLOX Wheel Chocks are built for reliability in tough conditions. Their wider footprint offers superior stopping power on sloped surfaces, and prevents sliding on asphalt or concrete. Unlike plastic chocks, these chocks won't blow away in the wind.

Rubber Support Pad (12x12x3/4")

These slip-resistant pads can be placed under the original OX BLOX® or the OX BLOX® MAXX to reduce movement and keep the block out of the mud.
